# WHO WE ARE

Welcome to ProMission Management Consultancy and Software Solutions. We are dedicated to exceeding your expectations by providing you with our management, consulting and software solutions services, with a focus on loyalty, customer service, and uniqueness.

Founded in 2018, ProMission proved a success with its valuable clients within a very short period. We exploit our team experience to ensure you a better future either if you are establishing your business or already operating.

We now serve customers in many locations and are thrilled to be a part of the revolutionary wing of the construction industry and other industries as well.

## A WORD FROM THE CEO

With the ubiquity of technology nowadays, we cannot deny the huge impact of software usage in driving companies to develop. In addition, building teams and departments using convenient procedures is the key to success. Believing in this, and my passion for helping others to be more successful drove me to quit my day job and gave me the incentive to turn hard work and inspiration into a booming consulting firm.

Our objective is to continue learning, developing, and supporting our clients to pursue their goals.

Sincerely,

Nadine Abdul Baky  
CEO and Founder
